Hi Marcia,

Ex. 5 AC/DP

Ex. 5 AC/DP Sorry I didn't get this out on Friday - I left my power cord at home and ran out of battery before I found wifi after the drive. I will be in tomorrow if you want to discuss anything.

Conclusion: The proposed applicability at 60.5395 requires an AD based on the throughput PER storage vessel and the Records of 5410 require a flow meter to make the determination, per storage vessel. While we changed from throughput to VOC TPY, we didn't discuss changing any of the per tank determinations or our BSER analysis.

Patrick,

Attached is the SV alert (word version) and the schematics. I can't seem to locate the publisher version but Ginny may have it and can send if you want it. **Ex. 5 Deliberative Process (DP)**
